airtouch⁵

Smart. Comfort.

Australia's Smartest
Air Conditioning Controller

Experience more comfort.
Enjoy more control.
Save energy running your air conditioning.
AirTouch 5

Greater
Climate Control

AirTouch knows how to keep everyone comfortable just the way they want.

Built in artificial intelligence helps manage temperatures and airflow for each room in your home, and can adjust your air conditioning with the weather.

Live in comfort and save energy, without having to think about it.

Your Control From
Anywhere

AirTouch 5 includes an all new advanced app to ensure you have access to your comfort, wherever you are.

Geofencing
Don't worry, we won't forget to turn it off when you leave, or back on again when you come home.

Temperature Alerts
You won't have to come home to an oven in summer or a freezer in winter again with home temperature alerts to your phone.

Intelligent &
Without Wastage

With Intelligent Temperature Sensor (ITS) technology, AirTouch tracks and manages temperatures throughout your home, instead of just 1 location.

Add more sensors, and enjoy

More Comfort
AirTouch is able to identify unwanted hot or cold spots and respond.

More Savings
AirTouch sends conditioned air only where it is needed.

More Convenience
ITS adds an extra switch for the air conditioning in each room.

More Control for Everyone
Now, everyone can set their favourite temperature for their space at home.

Display Your
Favourite Child

AirTouch 5 lets you choose between a number of great looking themes to suit your style.

You can select your favourite of our curated styles and background images, or upload your own photo for a smart home controller that's like no other!
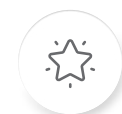

Make Home Comfort
Simply Smart

Interact with AirTouch in a way that suits You

Sleep & Away
Maximise comfort and energy savings without having to think about it.

Set & Forget Simplicity
Quick Timer & Routine Programs for your life's comfort.

Favourites
Your Favourite comfort scenario is just 1 touch away.

Voice Control
However you choose to control your air conditioning, AirTouch will respond.

Safety & Security

Certified by Google* on Android

Trust AirTouch to be the hub for your smart home and lifestyle devices to do everything you need from one place.

Use with a video doorbell or video conference: Have 2 way video conversations with the built in camera that includes a privacy cover.

*GMS (Google Mobile Services) certification
Additional apps not pre-installed. Apps shown are for illustrative purposes only. All specifications and features are subject to change without notice. AirTouch may run on an Android operating system version that may affect the functionality of various apps. Users should check compatibility before use. AirTouch is unable to warrant functionality of 3rd party apps.

Introducing
Insights

Save energy with artificial intelligence.

See when you used your air conditioning more than you needed to, or learn what rooms get used the most. Track your energy use air conditioning your home over a 24 hour, 7 day or monthly period and see where you can save energy, and money on your home's climate control.

Weather Adaption
Clever enough to realise when you don't need to run the air conditioning based on your local weather and turns the system off for you automatically.

zimi

Add Zimi...
Be in Control
Your Way

Turn the lights on before you get home.

The epitome of comfort, energy savings, smart home integrations and style. AirTouch and Zimi working together as partners.

Zimi lets you control your lights, power and garage doors from anywhere.

Schedule

Heated towels at 6am. Schedule your switches with Zimi to turn on or off at any time of the day.

Auto Off

Add a touch of simplicity to your life and never forget to turn off a switch.

Outside Lights from Inside
